Hygiene, Face and Body care

CALM V+

CALM V+

Range:

A French-made range of hygiene, face and body care products that soothe or hydrate, especially designed for sensitive skin. This range is formulated with active ingredients including extracts of hop, barley and sweet almond oil.

1 in 2 people in France have
sensitive skin

Sensitive skin:

Sensitive skin is a type of skin that reacts or over-reacts when attacked by external factors (such as pollution, make-up, etc.) or internal factors (such as hormones, stress, etc.). This sensitivity manifests itself through often uncomfortable sensations such as tightness, burning or tingling.

Active ingredients: from Aloe Vera to Barley

Aloe Vera*

100% natural origin active ingredient
Hydrating and soothing agent

Shea butter

100% natural origin active ingredient
Hydrating and nourishing agent

Sweet almond oil

100% natural origin active ingredient
A hydrating agent that leaves the skin soft

Barley extract

100% natural origin active ingredient

An agent containing polysaccharides and polypeptides to soothe the skin

Origin: France

Active ingredient exclusive to Vendôme, as part of the LPC group

Organic hop extract

100% natural origin active ingredient

A hydrating agent that improves the skin's barrier function, reduces redness and leaves the skin feeling soft

Active ingredient exclusive to Vendôme, as part of the LPC group

Hygiene, Face and Body care

NUTRI V+

NUTRI V+

Range:

A French-made range of hygiene, face and body care products that nourish or hydrate, especially designed for dry to very dry skin. This range is formulated with active ingredients including extracts of chestnut leaf, Aloe Vera or hyaluronic acid.

1 in 4 people consider their skin
to be dry

Dry to very dry skin:

Dry skin has a thinner skin barrier. This leads to water and lipids (oils) being lost, so that the skin eventually cracks. The skin can no longer provide protection from external damage.

Active ingredients: from Aloe Vera to chestnut leaf extract

Aloe Vera*

100% natural origin active ingredient
Hydrating and soothing agent

Apricot oil

100% natural origin active ingredient
Softening agent

Chestnut leaf extract

100% natural origin active ingredient
An agent that improves the skin's barrier function

Origin: France

Active ingredient exclusive to Vendôme, as part of the LPC group

Hyaluronic acid

100% natural origin active ingredient

Hydrating agent: a hygroscopic molecule (meaning it retains water on the surface of the skin) that forms a film on the surface of the skin to provide protection from external damage

TECHNICAL SPECIFICATIONS

Dermatological Bar Fragrance Free

The active power of plants: Apricot oil

Overview:

- + Fully recyclable cardboard box
- + FORMAT: 100g
- + SKIN TYPE: dry to very dry skin
- + APPLICATION AREAS: body and face
- + TEXTURE: solid

Hygiene, Face and Body care

REPAR V+

REPAR V+

Range:

A French-made range of hygiene, face and body care products that intensely hydrate or repair, especially designed for reactive skin with atopic tendencies. This range is formulated with active ingredients including extracts of oat or carrot root.

2 million people in France
have atopic skin

Reactive skin with atopic tendencies:

Reactive skin with atopic tendencies is hypersensitive and intolerant, with symptoms such as pruritus (severe itching), redness, dry patches, etc. Using specific products for skin with atopic tendencies is safer, as these types of skin can react very strongly.

Active ingredients: from Shea Butter to Oat

Shea butter

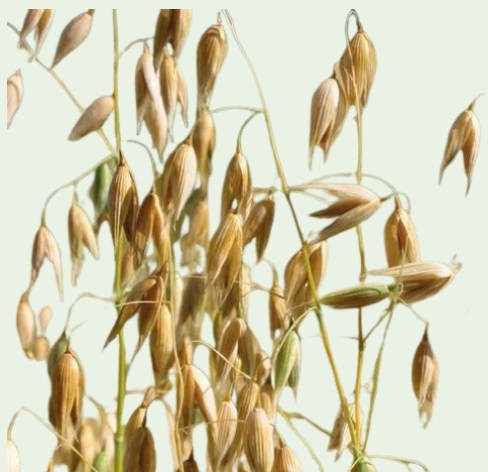

100% natural origin active ingredient
Hydrating and nourishing agent

Carrot root extract

100% natural origin active ingredient

A soothing, protective agent that improves the barrier function

Active ingredient exclusive to Vendôme, as part of the LPC group

Oat extract

100% natural origin active ingredient

Hydrating and soothing agent

Active ingredient exclusive to Vendôme, as part of the LPC group
